Diversity and Inclusion Policy for United World International School (UWIS)

Introduction

At UWIS, we believe that diversity and inclusion are essential values that enrich our school community and enhance our learning environment. We are committed to providing an education that respects and celebrates the diversity of our students, staff, families and partners, and that promotes a culture of inclusion, equity and belonging for all.

We recognize that diversity encompasses many aspects of identity, such as culture, nationality, ethnicity, race, religion, language, gender, sexual orientation, ability, socio-economic status, age and more. We also acknowledge that inclusion is an ongoing process that requires intentional actions and continuous reflection to identify and remove barriers to learning and participation for all members of our school community.

As a member of the Council of International Schools (CIS), we align our policy with the CIS framework for Inclusion via Diversity, Equity and Anti-racism (I-DEA)¹, which is anchored in human and children's rights². We also adhere to the local and national laws and regulations that protect the rights and dignity of all people.

Vision

Our vision is to develop curious, responsible and independent lifelong learners who actively help to shape their diverse communities. We aim to foster a school culture that values diversity as a rich resource for learning and growth, and that empowers all students to achieve their full potential as global citizens.

Objectives

The objectives of this policy are to:

- Provide a clear framework for promoting diversity and inclusion in all aspects of our school's operations, policies, curriculum, assessment, teaching and learning practices, extracurricular activities, partnerships and communication.
- Ensure that all students have equal access and opportunities to participate and engage in quality learning that meets their diverse needs, interests, strengths and aspirations.
- Support the development of the IB learner profile attributes and the IB approaches
 to learning in all students, as well as the acquisition of multilingualism and
 intercultural understanding.
- Create a safe, supportive and nurturing environment where all members of our school community feel valued, respected, included and celebrated for their unique identities and contributions.
